## Poliester Standard matt (AM)

### General Information

Coated sheets are the most popular among steel sheet roofing. Steel sheets are used, coated on both sides with a protective metallic layer, as well as a layer of primer and decorative paint. The last layer gives colour and texture, and protects against external conditions.

### Advantages and properties

### Material

The type and mass of the metallic coating on both sides together	Z 225-275 [g/m <sup>2</sup> ] / ZM 100-140 [g/m <sup>2</sup> ]
Environment classification according to EN ISO 12944-2	C3
Coating system	2-layer
Organic coat thickness side A	35 [μm]
Reaction to fire	A1
Resistance to external fire	B roof (t1), B roof (t2), B roof (t3)

### Warranty:

Perforation guarantee	35 years
Guarantee for lacquer delamination	15 years
