Poliester Standard matt INNOVA

General Information

Coated sheets are the most popular among steel sheet roofing. Steel sheets are used, coated on both sides with a protective metallic layer, as well as a layer of primer and decorative paint. The last layer gives colour and texture, and protects against external conditions.

Advantages and properties

Material

The type and mass of the metallic coating on both sides together	Z 225-275 [g/m ²] / ZM 100-140 [g/m ²]
