Pladur® Wrinkle Mat

General Information

Painted sheets with metallic layer ZM EcoProtect®. PLADUR ZM coating system consists in coating the steel core with a layer of zinc and magnesium weighing 130 g/m² and at least two layers (primer and top layer) of organic coating.

Advantages and properties

Pladur® Wrinkle Mat is a coarse-grained material, with colours according to known patterns, 2-layer coating system, coating thickness 35 microns.

Material

The type and mass of the metallic coating on both sides together	ZM 130 [g/m ²]
Coating system	2-layer
Organic coat thickness side A	35 [µm]
Environment classification according to EN ISO 12944-2	C4
Reaction to fire	A2
Resistance to external fire	B roof (t1), B roof (t2), B roof (t3)

Guarantee

Perforation guarantee for the environmental classification C1-C3	45 years
Perforation guarantee for the environmental classification C4	25 years
Guarantee for lacquer delamination	20 years
