

# Facade lamella

Product  
data sheet

## General information

Steel lamellas are a modern and durable alternative to wooden solutions. Facade lamellas offer a range of design possibilities for both the interior and exterior of a building.

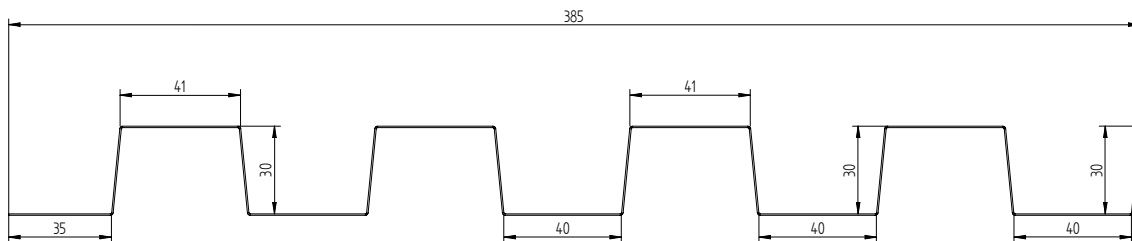

## Advantages and properties

The option of cutting to size and a wide range of colours offer unlimited possibilities for use. Facade lamellas are available finished in wood-effect RAL polyester 0.5 and Pladur® Wrinkle Mat coatings.

Thickness of the finished product (steel):	0,5 mm	Minimum sheet length:	1000 mm
Depth of profile:	30 mm	Maximum sheet length:	6000 mm
Pitch:	87 mm		

## Facade lamella – dimensions

## Application

Facade lamellas are supplied as ready-made elements for wall cladding. These sheets are used as finishing and protective elements in buildings. Facade lamellas should be used in accordance with technical designs, instructions and installation recommendations of the manufacturer, applicable standards and technical construction regulations.

Blachotrapez recommends to purchase all materials required for one investment under one purchase order. Otherwise it is possible that the colour shades and texture will vary which shall not be attributable to the Manufacturer.

The applied material has a wide range of applications due to the environmental classification, which is confirmed by a long warranty period depending on material (see the separate warranty form uploaded to our website [www.blachotrapez.eu](http://www.blachotrapez.eu))

### Research results / documentation

Facade lamella has a Declaration of Performance drawn up in accordance with the applicable standards and regulations for construction products.

We also have a Hygienic Certificate issued by the National Hygiene Institute PZH.

These documents are issued to implemented orders. In order to obtain them, please contact the Quality Control Department - the scheme of procedures is provided on our website.

### Additional information

For all types of profiles we have properly prepared instructions for transport, storage, cutting and maintenance of sheet metal. To familiarize yourself with the content, please visit [www.blachotrapez.eu](http://www.blachotrapez.eu) and contact our Technical and Trade Consultants or branches of our company - addresses can also be found on our website.

We also have numerous awards and certificates, which you can find on our website [www.blachotrapez.eu](http://www.blachotrapez.eu)
